

## Dragan Ledina

**Scientific Personal Identification Number: 233846**

### **Academic achievements:**

**2007 – 2011; PhD**, School of Medicine, University of Zagreb

**1995 – 2000; MSc**, School of Medicine, University of Zagreb

**1979 – 1985; Medical doctor**, School of Medicine, University of Zagreb

### **Working experience:**

**1995 - present** Specialist for infectious disease, Clinical hospital center Split

**1990 - 1995** Infectious diseases residency

**1985 - 1990** Medical doctor (General practitioner), Community Health center Omiš

### **Professional education and training:**

**1992 – 1995; Infectious disease residency;** University Hospital for Infectious Disease "Dr. Fran Mihaljević", Zagreb

### **Collaboration in current projects:**

**2014 – present – Collaborator** in research project, "Innate immunity to Hantaviruses (HANTA-INNATE)" (P.I. prof. Alemka Markotić, MD, PhD; Funded by the Croatian Science Foundation

**Collaborator**, Clinical trial, "A phase III, randomized, multicenter, double blind, Double dummy, Parallel –group, comparative study to determine the efficacy, Safety, and tolerability of Ceftazidime-Avibactam versus doripenem followed by appropriate oral therapy in the treatment of complicated urinary tract infections, including acute pyelonephritis, with gram negative pathogen in hospitalized Adults" (No D 4280C00002 sponsor AstraZeneca).

### **Collaboration in past projects:**

**2007 - 2014 - Collaborator**, "Immunoreactions to hantaviruses and leptospira" (PI prof Alemka Markotic MD PhD, No 143-1430115-0103)

**2007 – 2014 - Collaborator**, "Forestry ecosystems as natural focuses for hantaviruses and leptospira" (PI Prof Josip Margaletić PhD, No 068-1430115-2119)

**Principal investigator**, "A multicenter, Double-blind, Randomized, Phase 3 study to compare the Safety and Efficacy of intravenous CXA-201 and intravenous levofloksacin in complicated urinary tract infection, including pyelonephritis" (No CXA-cUTI-10-05 Cubist pharmaceutical)
